

- (1) "on-chain" Communication Protocol & Smart Contract stack
- (2) infrastructure-dedicated SDK
- (3) UI White-label stack
- (4) multi-level integration licencing

Web3 E2E communication encryption

- (1) "on-chain" Communication E2E Encryption [browser extension]
- (2) "on-chain" Communication Notifications [browser notifications]

- (P1/P3) Protocol v.1 TestNet & MainNet deployment [30+L1s & L2s]

- (P3) "on-chain" Communication-specific AppChain

POLLINATIONX
DECENTRALIZED STORAGE ON DEMAND

- (P1) PX Platform [integrator-dedicated decentralized storage on-demand]
- (P1) PX Dashboard [decentralized storage management dApp]
- (P1) PX sNFT [decentralized storage dynamic NFTs]
- (P1) BTFS support
- (P2) IPFS & FileCoin support

- (P2) Access to exclusive SDK packages
- (P2) dMail & dChat one-click deploy White-labels
- (P2) Access to Protocol dApp integrator owner-fee layer
- (P2) Early access to "on-chain" Communication Protocol v.1 deployments [30+L1s&L2]
- (P2) Reseller access to PollinationX decentralized storage custom packages

- (P1) dMail & dChat [PAYGO transaction-based dApp]
- (P2) dMail & dChat [subscription-based dApp]
- (P3) Broadcasting Web3 dMail to SMTP Win, macOS & Linux [subscription-based client]

W3XSHARE
W2W DATA FILE TRANSFERS

- (P1) Web3 Data File Transfers [PAYGO transaction-based dApp]
- (P2) Web3 Data File Transfers [subscription-based dApp]

POLLINATIONX
DECENTRALIZED DRIVE

- (P1) Decentralized storage PX Drive [PX sNFT subscription-based dApp]

on-chain communication technology infrastructure stack

on-chain communication technology framework
